Summary

I am a professional software developer with over 7 years of industry experience in both frontend and backend roles. Proficient in C#, ASP.Net, MVC, and REST API. I work well in an agile development team and produce high-quality code. I take pride in producing minimal bugs. I am looking for a new company, preferably SaaS, that works on a variety of projects using modern technology. A company with great coding standards and a focus on continued personal growth.

Technical Skill Set

C#
ASP.Net
MVC

HTML
CSS
SQL Server
Javascript

SEO
Git
Agile/Scrum
Jira

Professional Experience

Software Engineer | Eploy *October 2019 - Present*

Worked on an award-winning Applicant Tracking System and Talent CRM as part of an agile team. Developed several features in ASP, .Net, .Net Core, RestAPI. Gained experience with C# SQL, APIs, Git, Peer reviews and Scrum

Frontend Developer | Eastside Co *June 2019 - October 2019*

Worked on numerous Shopify websites, implementing bespoke features that were outside the scope of the CMS. Developed skills in SASS, HTML 5, and JavaScript.

Developer | NetLynk Direct *August 2016 - June 2019*

Worked on the Plusnet mobile and Talk Talk websites using ASP.Net MVC, as well as building a bespoke CMS for the site. Developed skills in C#, HTML, CSS, SEO, Bootstrap, SVN version control, and JavaScript.

Apprentice C# Developer | Wapple *August 2015 – August 2016*

Learned the basics of C#, XAML, EF, and C++. Gained knowledge of Unity game engine, Microsoft Visual Studios, Windows Universal Platforms, and Windows 8.1.

Personal

I'm a friendly, kind, and sociable guy. I host games nights with work colleagues. I do archery once a week. I also code in my spare time, working on a productivity app called Streak, which is open-source on Github. A friendly company culture is very important to me. I am also looking for a workplace that offers flexible working alongside a casual and relaxed environment.
